Crisp, Gordon Andrew	Legislative Council 2019 State General Election		Legislative Council Election	23/03/2019		STOP ELDER ABUSE!!! - The Interim Report of the Royal Commission into the Financial Services has revealed widespread "unconscionable conduct" on the part of financial institutions and that no serious attempt was made by authorities to stop criminal acts. The same is happening with other aspects of "elder abuse" with an abject failure of the Police and others to carry out their duty. The Police MUST BE COMPELLED to enforce the law particularly to protect the elderly from abuse!

Doran, William Joseph	Port Stephens 2019 State General Election		Legislative Assembly Election	23/03/2019	Port Stephens	I don't have a Law degree and I've never been to Afghanistan. What I do have is life experience in many facets of life. I've worked for all three branches of Defence. I've actively volunteered in the community for numerous years and I've worked in each of the industry sectors. Unfortunately following our move to Port Stephens region I went through a period of unemployment due to the socioeconomic conditions in the greater Hunter and despite working for 40+ years not a Certificate III to my name. My wife and I have had to live on the miserable Newstart Allowance and been made to feel that we were "dole bludgers" or social cheats, taking everything we can get from the community and giving nothing in return. Sadly, I've been marginalized because of my age and ignored despite identifying a disability. And to be honest, I'm FED-UP! 1. FED-UP with the excess in all levels of government and the arrogant belief that they deserve more than those that voted for them! 2. FED-UP with being promised the earth and given an atlas! 3. FED-UP with public health and schools being ransacked, diminishing their ability to properly serve our communities! 4. FED-UP with Governments and their hidden agenda! 5. FED-UP with Governments and politicians that want to privatize everything but their own jobs! 6. FED-UP with no one taking responsibility for their actions any longer! Hey I'm just FED-UP!!! I would like the opportunity to fight for substantial change in all these areas. Proper funding for public schools and hospitals, reduce government sector executive and elected officials salaries and allowances. Priorities infrastructure projects based upon "Community Safety and the Governments Duty of Care to its citizens" ahead of tourist facilities and sports stadiums. If I were fortunate enough to be elected to represent Port Stephens I will lead by example and gladly give 30% of my MP salary, on top of the electoral allowance, towards the Port Stephens electorate, starting with local public schools. I would challenge local government executives and officials to do the same. We know things are tough and money's tight for many in the community, so let those who can afford it lead by example!

Doyle, Therese	Charlestown 2019 State General Election	The Greens NSW	Legislative Assembly Election	23/03/2019	Charlestown	Therese Doyle was a councillor on Newcastle City Council from 2012 to 2017. Therese gained a reputation for integrity, reliability and standing up for residents' rights. Working collaboratively with local community groups, council committees, and constituents, Therese fought for an urban renewal strategy that would meet residents' rather than developers' needs. In the seat of Charlestown, Therese stands for a decisive shift in government priority away from serving private interests towards public services that are put back in public hands, especially transport, education, energy, health and housing. No seismic testing off our coast, a just transition now from coal and fast track renewable energy, creating sustainable new jobs.

Grierson, Kim	Lake Macquarie 2019 State General Election	The Greens NSW	Legislative Assembly Election	23/03/2019	Lake Macquarie	I have lived in Lake Macquarie for 22 years and have raised my children here. I love Lake Macquarie and want the area to do well. I believe that climate change is the biggest issue for us to urgently deal with to prevent disaster for our children. NSW needs to move quickly to renewables as our aging, coal clunker power stations are retired. Research tells us this will create many thousands of new jobs, far more than the coal and gas industries. During my career, I have worked in employment, rehabilitation and education. In recent years I have worked for TAFE in the Disability Service, helping students with disabilities to train for work. The labour market is rapidly changing due to automation, computerised systems and the internet. It is therefore vital that our public education - schools, pre-schools, TAFE and universities - are well funded and supported, so that our young people and unemployed can cheaply and easily train to get employment. Good public transport and cycleways give us the options to avoid the increasing congestion on our roads. We need Glendale station to finally be built, and the superfast train to connect Lake Macquarie to other parts of Australia. This will create business and employment opportunities. The Greens will fight for ethical government. They will always put community and environmental need before developer greed.

Morris, Hillary Ann	Gosford 2019 State General Election	The Greens NSW	Legislative Assembly Election	23/03/2019	Gosford	I have a passion for the environment and am very concerned about the current State Governments lack of action on climate change and the long term economic impact this will have on our region. As someone who runs a business in Gosford, I want to see our area thrive through job creation in renewables; eco tourism; protection of our beautiful beaches and waterways; protection of our water sources and a tougher approach to waste and pollution by the EPA. I believe in ecological sustainability; social justice; grassroots democracy; peace and non violence.

Werner, Greta Weston	Kogarah 2019 State General Election	The Greens NSW	Legislative Assembly Election	23/03/2019	Kogarah	If elected, I will work to limit global heating by promoting policies that ensure NSW moves to 100% renewable energy by 2030. I will also work to overcome the housing crisis in NSW by ensuring more funds are spent on social and affordable housing, funded by a progressive tax on land, which replaces stamp duty.

Williamson, Douglas James	Swansea 2019 State General Election	The Greens NSW	Legislative Assembly Election	23/03/2019	Swansea	Recently Qualified as an environmental scientist, one of my links with this area was assisting my uncle, a former voluntary warden at the Belmont Lagoon, where we carried out maintenance and after hours guardianship for a number of years at this local waterbird nursery. During and since retiring from public education I have worked on a number of campaigns to: End logging in NSW forests; stop nuclear and timber ships coming into Australian ports; disarmament; no coal seam gas; transitioning out of coal mining and coal power generation; public education; public transport before tollways and NSW Government corruption. These and others are issues I will fight for in Swansea and the greater Newcastle region. Another major issue for Swansea is the offshore seismic blasting program currently planned by Advent Energy from 9 April this year to occur every 3-4 seconds for 24 hours a day. This will kill and injure humpback whales at the end of their migration to their breeding areas on the Great Barrier Reef, dolphins and other marine life by deafening them at a time when we are only becoming aware of the high dependence of marine creatures on noise signals off our eastern seaboard.
